

## QUALIFICATION AND TRAINING

WinAir's Qualification and Training enhancement will revolutionize how you track and manage staff authorizations, qualifications, licenses, and personnel requirements as they relate to aircraft maintenance. Businesses using this enhancement have the power and flexibility to add and define credentials and align them with the requirements in their procedure manual. WinAir will alert staff when any items are due for renewal, saving you time, keeping all appropriate parties informed, and assisting with maintaining compliance.

## OUR APPROACH

For over 30 years, WinAir has been a forerunner in the aviation industry. By uniting staff credentials with aircraft maintenance, WinAir provides businesses with the assurance that they always have the right person for the maintenance task at hand.

### TRACK CREDENTIALS

Ensure that all staff credentials are up-to-date, and only those with the required permissions can sign off maintenance tasks.

- » Authorizations
- » Qualifications
- » Licenses
- » Education & Training

### MANAGE REQUIREMENTS

Quickly determine which staff meet unique project-specific requirements for items such as travel restrictions.

- » Health & Safety
- » Visas
- » Vaccinations
- » Passports

### ENSURE COMPLIANCE

Safeguard against the unauthorized approval of maintenance tasks with data-enforced software validation.

- » Adhere to Regulations
- » Expedite Processes
- » Link Supporting Documents
- » Improve Planning

## BUNDLES AND FEATURES

### ADMINISTRATION AND SECURITY PLUS

» Personnel Authorizations and Qualifications

### ADMINISTRATION AND SECURITY ADVANCED

» Personnel Training and Development Requirements
